

Siddharth Chadha | Product Manager

Phone: +91 9113574854 Email: siddharth.chadha7@gmail.com LinkedIn: <https://www.linkedin.com/in/sid625/>

SKILLS

Product: Product strategy & roadmap, 0→1 launches, GTM strategy, pricing, A/B testing, user research, cross-functional stakeholder management
AI: Agentic workflows, LLM product design, AI-assisted CI/CD & DevOps automation, prompt engineering (Claude)
Technical: Python, FastAPI, Flask, SQL (Postgres, Snowflake), JavaScript, React.js, Node.js, Docker, GitHub CI/CD
Analytics & Tools: PostHog, Amplitude, MS Clarity, GA4, Metabase, Figma, Notion, Slack, Whimsical

EXPERIENCE

Product Manager | NodeOps (Google For Startups - India Class of 2026) 2024 - Present

- Launched CreateOS, an AI-native zero-code platform to build and deploy applications; scaled to **10,000+ users in the first quarter** via GTM across a 70,000+ developer community with a 5-person engineering team — ranked **#1 Product of the Day on Product Hunt**.
- Replaced manual YAML/Docker setup with AI-assisted GitHub CI/CD, adding AI assisted app building functionality; closing the build-to-deploy gap. Drove **4.9M+ build hours, 20K+ deployments, and 12K+ vibe-coding sessions**.
- Designed a **unified credit system** merging deployment and AI-generation billing driving **120% increase in revenue** in the following month.
- Proposed the pivot from Web3-only node deployments to a deployments-first strategy.** Backed it with subscription data, crypto market cycles, and an early node-sale downtrend. Validated via Web3 developer surveys: users could vibe-code front-ends but stalled at deployment.
- Scaled the Node-as-a-Service launchpad to **65+ protocols**; retail users run nodes with zero configuration. Reached **\$160M+ AUM, 300K+ wallets, \$4.3M+ revenue**.
- Built a data analytics, tracking, and **Sybil-detection pipeline** from scratch, **flagging 95%+ of Sybil wallets across 10M+ wallets (saving \$15K in tooling)**.

Product Lead, Nexus | BlueUrbn (Stanford-incubated) 2023 - 2024

- Led Nexus, a rebates engine helping commercial buildings adopt energy-efficient systems. Surfaced federal, state, and utility incentives in New York and California; **cutting payback periods by 30% on average**.
- Cut incentive research from **8-9 hours to 30-60 minutes (~90% faster)** by aggregating **380+ rebate programs across 30+ products into one searchable engine**, workflow validated by the Director of Buro Happold.
- Ran discovery with building-energy scientists, MEP firms, and engineering partners to define the product, **securing 5+ enterprise MoUs and shipping 15+ features** across the Nexus calculator and Retro energy-model MVP.
- Owned incentive logic and compliance research** across IRA, ITC, PTC, and utility programs (PG&E, NYSERDA), aligning the product to ASHRAE, Title 24 (CCR), and DOE standards.

Business Technology Analyst | Deloitte (client: global pharmaceutical company) 2021 - 2023

- Lifted sales 22%+** the following cycle by **optimizing per-rep channel mix, frequency, and spend** across a **350+ rep field force**.
- Engineered the model-ready dataset (MRDS) and **pre-processing pipeline** powering a deep learning **sales-optimization model** deployed across **20+ markets**.
- Owned the data foundation for **8+ markets, consolidating fragmented sources** (SQL, text, Excel) into clean, feature-rich training data for **omnichannel HCP targeting** (in-person, events, calls, email, WhatsApp).

PROJECTS

Marketing Analytics

- Tracks post performance, reach, and cadence across all social channels. Used weekly by the marketing team; **saves 4-6 hours of pre-processing per week**.

CompetelQ

- Ingests competitors' links, screenshots, docs, and pricing; auto-generates comparative analysis. Adopted team-wide; **informed cutting or pausing 3 pipeline products**.

LEADERSHIP

IAESTE India | National Secretary

- Represented India at the 2020 Annual General Conference in Slovakia.
- Increased National Committee **savings by 68%** and launched **2 new revenue streams**.
- Exchanged the **2nd-highest** number of offers **globally**, up **16% year-over-year**.
- Designed an app to **digitize the global offer-exchange process** - cutting processing time, **eliminating ~15k sheets of paper**, and improving analytical insights; adopted by the **IAESTE A.s.b.l. Board**.

EDUCATION

Manipal Institute of Technology, Manipal 2017 - 2021

Btech - Electronics & Communication Engineering | Minor - Data Science - **8.14 CGPA**

CERTIFICATIONS

- Claude Partner Network Learning Path
- Microsoft PowerBI Data Analyst (PL 300)
- Deloitte AI Academy | Batch of 2021
